CHALLENGING PERSPECTIVES

Internship opportunities

EADS unites a leading aircraft manufacturer, the world's largest helicopter supplier, a global leader in space programmes and a worldwide leader in global security solutions and systems to form Europe's largest defence and aerospace group. More than 140,000 people work at Airbus, Astrium, Cassidian and Eurocopter, in 90 locations globally, to deliver some of the industry's most exciting projects.

An **EADS internship** offers the chance to use your theoretical knowledge and apply it first-hand to real situations and assignments during your studies. Given a high level of responsibility, plenty of learning and development opportunities, and all the support you need, you will tackle interesting challenges on state-of-the-art products.

We welcome more than 5,000 interns every year across disciplines ranging from engineering, IT, procurement and finance, to strategy, customer support, marketing and sales. Positions are available in France, Germany, Spain and the UK.

To find out more and apply, visit www.jobs.eads.com. You can also find out more on our **EADS Careers Facebook page**.

AIRBUS **ASTRIUM** **CASSIDIAN** **EUROCOPTER**

EADS

Problem 1

Alberto Condor has an eye for quality. He recently formed an art gallery where he allows artists to display their artwork for sale. Customers buy the artwork through the gallery, but payments are actually made payable directly to the originating artist. Artists, in turn, pay Albert a 20% commission that is appropriately reflected as revenue of the gallery.

Following is Albert's trial balance after the first year of operation. This trial balance does not reflect the adjustments that are necessary, as described by the additional information.

ALBERT CONDOR ART GALLERY		
Trial Balance		
As of December 31, 20X8		
	Debits	Credits
Cash	\$ 64,400	\$ -
Supplies	23,765	-
Display equipment	52,500	-
Loan Payable	-	26,250
Capital Stock	-	87,500
Revenues	-	170,065
Rent Expense	38,500	-
Salaries Expense	84,000	-
Interest Expense	1,750	-
Utilities Expense	18,900	-
	<u>\$ 283,815</u>	<u>\$ 283,815</u>

The Display equipment was purchased near the beginning of the year. It has a 5-year life and no salvage value. Its cost should be depreciated equally over its life.

Albert is entitled to receive \$62,650 of commissions for art sold. This revenue has not yet been recorded, but it is fully expected that the artists will soon be making payment.

Supplies on hand at year end were counted, and amount to \$11,900.

December's rent of \$3,500 has not yet been paid.

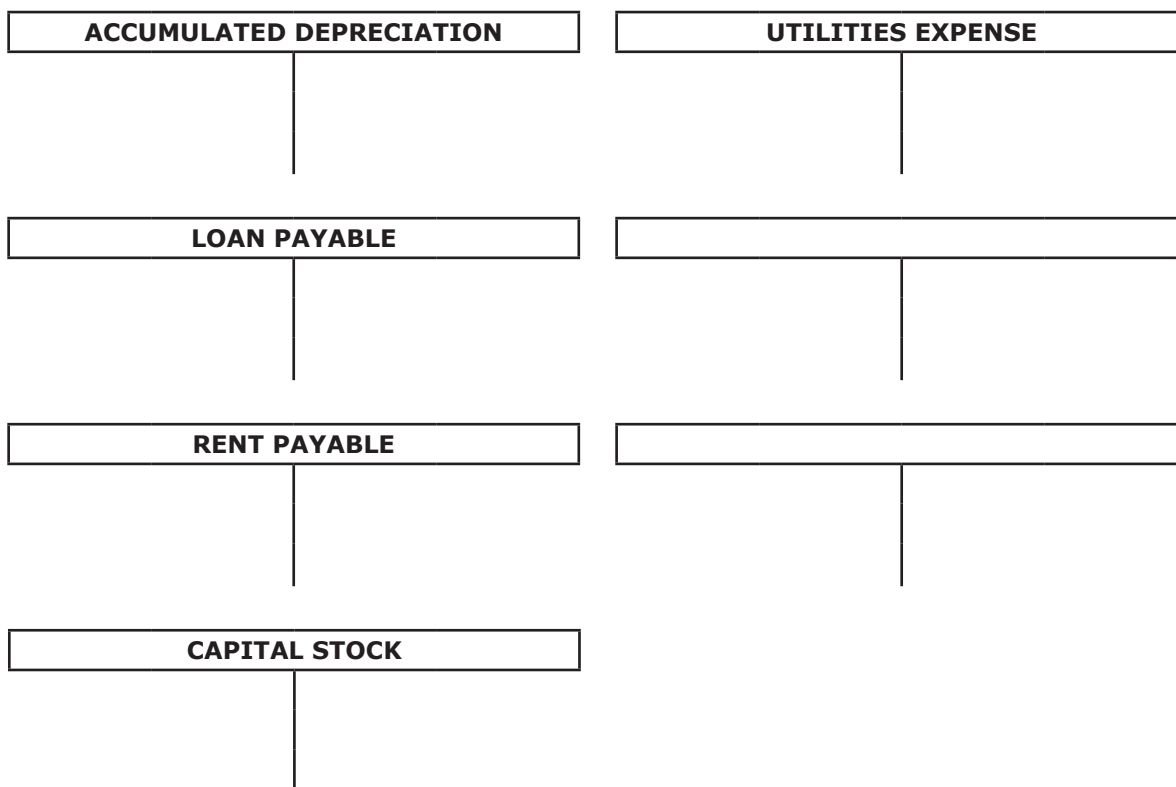

- Prepare the necessary adjusting entries as of December 31, 20X8.
- Use T-accounts to determine the adjusted balances of the accounts.
- Prepare the adjusted trial balance for Amber Nestor.

Problem 2

Wolfgang Schnitzer is in charge of financial management for Over-Head-Eye Corp. Over-Head-Eye utilizes satellite technology and sophisticated mapping software to alert its customers to trespassing, illegal dumping, and other encroachments on property these customers own around the globe. Customers typically purchase one-year contracts for this service, and the pricing depends on the number and size of sites monitored.

Mr. Schnitzer desires to review financial reports -- an income statement, statement of retained earnings, and balance sheet. Prepare these reports from the following adjusted trial balance. Mr. Schnitzer needs this information for internal review purposes, and does not require a classified balance sheet. The operating data relate to the full year, and the blank worksheet already includes partial data.

OVER-HEAD-EYE CORPORATION		
Adjusted Trial Balance		
As of December 31, 20X0

Problem 4

Elements is an upscale university housing complex providing all the amenities of private townhouse living, and a full service 24-hour cafeteria for busy students. Prior to recording any adjusting entries for 20X8, Elements has incurred and recorded total salary expense of \$2,625,000 and total rental revenue of \$14,400,000.

As of December 31, 20X8, the company owes \$45,000 of additional salaries to employees, and accrued rent due from residents amounts to \$300,000.

On January 10, 20X9, Traditions paid salaries of \$120,000 covering the amount due as of December 31, as well as additional amounts relating to 20X9.

On January 15, 20X9, Traditions received rental payments for \$750,000 covering the rents due as due of December 31, 20X8, and additional amounts relating to the first half of January, 20X9.

- a) Prepare the necessary year-end adjusting entries for salaries and rent.
- b) Determine the total salaries expense and total rent revenue for 20X4.
- c) Assuming the company uses reversing entries, prepare necessary reversals for early 20X5.
- d) Assuming the company used reversing entries, prepare entries for January 10 and 15, 20X5.
- e) Assuming the company does not use reversing entries, prepare entries for January 10 and 15, 20X5.
- f) Show how 20X5 salaries expense and rent revenue will be the same, whether reversing entries are used or not.

Worksheet 4

GENERAL JOURNAL			
Date	Accounts	Debit	Credit
a) Dec. 31			
Dec. 31			

b)			
c)	Jan. 1		
	Jan. 1		
d)	Jan. 10		
	Jan. 15		
e)	Jan. 10		
	Jan. 15		
f)			

Solution 4

GENERAL JOURNAL			
Date	Accounts	Debit	Credit
a) Dec. 31	Salaries Expense	45,000	
	Salaries Payable		45,000
	<i>To record accrued salaries</i>		
Dec. 31	Rent Receivable	300,000	
	Rent Revenues		300,000
	<i>To record accrued rent revenue</i>		
b)	Total salaries are \$2,580,000 (\$2,625,000 + \$45,000) Total rent revenue is \$14,100,000 (\$14,400,000 + \$300,000)		
c) Jan. 1	Salaries Payable	45,000	
	Salaries Expense		45,000
	<i>To reverse accrued salaries</i>		
Jan. 1	Rent Revenues	300,000	
	Rent Receivable		300,000
	<i>To reverse accrued rent revenue</i>		
d) Jan. 10	Salaries Expense	120,000	
	Cash		120,000
	<i>To record payment of salaries</i>		
Jan. 15	Cash	750,000	
	Rent Revenues		750,000
	<i>To record collection of rent</i>		
e) Jan. 10	Salaries Expense	75,000	
	Salaries Payable	45,000	
	Cash		120,000
	<i>To record payment of salaries</i>		
Jan. 15	Cash	750,000	
	Rent Receivable		300,000
	Rent Revenues		450,000
	<i>To record collection of rent</i>		
f)	Salaries expense without reversing entries of \$75,000 (see entry (e)) equals the results from (c) and (d) with reversing entries (\$120,000 - \$45,000). Rent revenues without reversing entries of \$450,000 (see entry (e)) equals the results from (c) and (d) with reversing entries (\$750,000 - \$300,000).		

Problem 5

Dingane Ndubizu owns a diamond mining business in South Africa. He is interested in attracting additional investors to obtain financing for planned expansion. Some potential investors have expressed a concern that money is really being sought to address liquidity problems being faced by Dingane's company.

To alleviate this concern Dingane provided the following complete list of assets and liabilities of the company. The currency unit is the South African Rand. Use this information to determine the company's current assets, current liabilities, working capital, current ratio, and quick ratio. Based on your calculations, does it appear that the company is experiencing liquidity problems?

Accumulated Depreciation	R 7,995,750
Prepaid Rent	80,150
Note Payable (due in 3 months)	175,000
Accounts Receivable	819,000
Accounts Payable	446,250
Patent	5,250,000
Cash	1,382,500
Supplies	235,900
Unearned Revenues	232,750
Equipment	15,360,800
Interest Payable	78,750
Loan Payable (due in 3 years)	2,625,000

Quick Ratio:

Solution 5

		Current Assets	Quick Assets	Current Liabilities
Accumulated Depreciation	R 7,995,750			
Prepaid Rent	80,150	R 80,150		
Note Payable (due in 3 months)	175,000			R 175,000
Accounts Receivable	819,000	819,000	R 819,000	
Accounts Payable	446,250			446,250
Patent	5,250,000			
Cash	1,382,500	1,382,500	1,382,500	
Supplies	235,900	235,900		
Unearned Revenues	232,750			232,750
Equipment	15,360,800			
Interest Payable	78,750			78,750
Loan Payable (due in 3 years)	2,625,000			
		<u>R 2,517,550</u>	<u>R 2,201,500</u>	<u>R 932,750</u>

Working Capital:

Current assets	R 2,517,550
Less: Current liabilities	<u>932,750</u>
	<u>R 1,584,800</u>

Current Ratio:

$$\text{Current assets} \div \text{Current liabilities} \quad R 2,517,550 \div R 932,750 = 2.70$$

Quick Ratio:

$$\text{Quick assets} \div \text{Current liabilities} \quad R 2,201,500 \div R 932,750 = 2.36$$

The ratios do not seem to indicate a liquidity problem. Current assets are almost 3X current liabilities, and a large portion of those assets are in highly liquid items such as cash and receivables.

Problem 6

McComick Corporation prepared the following preliminary trial balance. The trial balance and other information was evaluated by Darren Anderson, CPA. Darren has returned a list of proposed adjustments that are necessary to facilitate preparation of correct financial statements for the year ending December 31, 20X8.

McCORMICK CORPORATION

- d) It is true that the adjustments produce no change in net income. The increase in revenues of \$37,500 is exactly offset by the increase in expenses ($\$12,000 + \$4,500 + \$11,700 + \$9,300 = \$37,500$). However, the individual accounts would not be correct if the adjustments were not made. It is important that all information be correct, and the adjustments should be recorded.

Problem 7

Examine the following trial balances, before and after adjustment:

YORKSHIRE CONSULTING CORPORATION				
Trial Balance and Adjusted Trial Balance				
As of December 31, 20X9				
	Debits	Debits	Debits	Debits
Cash	\$ 667,560	\$ -	\$ 667,560	\$ -
Accounts Receivable	350,616	-	430,616	-
Supplies	35,968	-	18,000	-
Prepaid Rent	24,000	-	8,000	-
Equipment	582,800	-	582,800	-
Accumulated Deprec.	-	150,640	-	178,640
Accounts Payable	-	54,360	-	54,360
Wages Payable	-	-	-	18,000
Interest Payable	-	-	-	6,000
Unearned Revenue	-	72,000	-	48,000
Notes Payable	-	200,000	-	200,000
Capital Stock	-	900,000	-	900,000
Retained Earnings, Jan. 1	-	356,476	-	356,476
Dividends	160,000	-	160,000	-
Revenues	-	1,337,960	-	1,441,960
